I am a dedicated and enthusiastic Computer Science undergraduate at the University of Dundee, pursuing a career in software development. I bring a strong work ethic, attention to detail, and a proactive approach to problem-solving. My academic background has equipped me with a solid foundation in programming, algorithms, and software design, while my part-time work experience has strengthened my teamwork, communication, and time management skills. I am eager to contribute to innovative development projects, continuously learn new technologies, and grow as part of a dynamic software engineering team.

Education

University of Dundee — *BSc (Hons) Computer Science*

September 2024 – Present

- Developing skills in programming (Java, C, C++), data structures, algorithms, and web technologies.
- Building projects focused on software design and development.
- Strengthened problem-solving and analytical thinking through coursework and collaborative assignments.
